

Mr. Suryakant Pathak

The journey into the wonderful and exciting World of Knowledge begins at school as it encourages creativity and liberates the world of imagination within each child.

Fast paced technological changes and easy access to information at the click of a 'mouse' have created new challenges for Learners and educators. We have to make an effort to come out of the safety of routine conformity and encourage originality and exploration.

We have to be ready with innovation and fresh ideas which will equip our children with both hard and soft skills and make them ready to face the world.

It is our endeavor to make learning a joyful and meaningful experience so that School years at KV-2 Bhopal will be memorable ones for all our promising stars.
